B.Cu (Scale 1:1)

The image shows the copper layer (B.Cu) of a PCB. It features a complex circuit layout with various components and traces. The layout includes a central microcontroller or processor, several peripheral components, and a dense network of traces connecting them. The board has a rectangular shape with rounded corners and four mounting holes at the corners. The copper layer is shown in a light blue color, and the traces are in a darker blue.
